

THE HISTORY COUNCIL WEBSITE

Each main page of this website features a distinctive pictorial image of South Australian life. Most of the original photographs reproduced here date from the first half of the twentieth century. The one exception depicts a relatively new aspect of the rural landscape in a state committed to reducing its former reliance on energy generated by fossil fuels.

We are most grateful to the State Library of South Australia, the National Archives of Australia and a private collector for permission to reproduce these images.

1. HOME image: *Immigration -Young immigrants disembarking in Australia, 1921*
Black and white photograph, Courtesy National Archives Australia, A12111, 2/1921/4A/1.
